Internship Offer Letter

Student Name : Ayush Singh
Stream : B.Tech
Branch : B.Tech(Computer Science and Engineering)
Institute Name : ITM University Gwalior
Internship Domain : Java Full Stack Developer
Internship Duration : June 2026 - August 2026
AICTE Student ID : STU6839543c05d811748587580

We are pleased to inform you that you have been selected for the 8-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

Internship Structure & Evaluation:

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

The week wise Structure of the Internship is as Follows:

Week	Module	Description
Week 1	HTML	Learn HTML fundamentals including page structure, semantic elements, forms, tables, and building the foundation of web pages.
Week 2	CSS	Master CSS styling concepts including selectors, box model, positioning, flexbox, grid, and responsive web design.
Week 3	Bootstrap	Build responsive and mobile-first interfaces using Bootstrap components, grid system, and utility classes.
Week 4	JavaScript & jQuery	Learn JavaScript fundamentals, DOM manipulation, events, and interactive web applications.
Week 5	Core Java	Understand Java fundamentals including OOP concepts, collections, exception handling, and file handling.
Week 6	Advanced Java	Explore JDBC, Servlets, multithreading, and enterprise-level application development.
Week 7	Spring Framework & Spring Boot	Develop enterprise applications using Spring Boot, REST APIs, and dependency injection.
Week 8	Hibernate & MySQL + Git & Version Control	Learn ORM concepts using Hibernate and integrate MySQL database for CRUD operations.
Internship Grade Point Assessment		

Note: There is no stipend associated with this internship.

We congratulate you on your selection and wish you a successful learning journey.
